Group results

K Even if the current situation has not left our company unaffected, we have nevertheless been able to hold our own in this difficult environment.

Markus Brütsch, CEO, CFO

Picture large: New sawmill Azobé in Gabon Picture small: Sawmill in Brazil

Lower earnings in the first half of 2020

In the first half of 2020, Group sales amounted to EUR 23.1 million, and earnings before interest and taxes (EBIT) amounted to EUR -0.4 million or -1.9 %. Despite sales growth of 1.9 %, this represents a reduction in EBIT of EUR 1.8 million compared with the same period of the previous year. Along with other influences, the impact of the Covid-19 virus on operations, but also on sales markets, caused this drop-in earnings. At the veneer plant in Gabon, production could not resume as scheduled in January due to delays in technical maintenance. Strikes and transport problems also interfered with deliveries within Gabon. The lack of margins and the loss of production had a severe impact on EBIT for the first half of the year. The sawn timber volumes of all sawmills were about 2.3 % lower than in the previous year, while the production volumes of the veneer plant fell by only about 3.7 % despite the loss of production. Operations in Brazil developed positively in line with expectations, and the exchange rate also developed to our advantage. The Group's net result was EUR -2.3 million (previous year: EUR -0.2 million). The generated cash flow enabled further investments in productivity. Debt remained at the year-end level. Working capital fell by about EUR 2.4 million but is still too high at 31.9 % of sales. Barring governments having to impose new Covid-19 lockdown measures, the outlook and expectations for 2020 as a whole is cautiously positive, given that the second quarter ended at least with a breakeven result.

in EUR million	30.06.20	30.06.19	Index	Change
Net Sales Precious Woods Group	23.1	22.7	101.9 %	+0.4
Net Sales Precious Woods Gabon	15.8	13.8	114.4%	+2.0
Sawmills in Gabon	12.0	10.7	112.1%	+1.3
Veneer plant in Gabon	6.3	4.8	132.0%	+1.5
Net Sales Precious Woods Amazon	6.2	6.3	98.5%	-0.1
Net Sales Precious Woods Trading	1.4	2.7	51.2%	-1.3

The exchange rate effect on sales was-0.7% compared to the same period last year.

The markets' development was extremely volatile in the first half of 2020. The worldwide lockdown led to delays in acceptances and payments, and in some cases, shipment was no longer possible. This had a negative impact on cash flow. In general, there was pressure on prices because customers were very reluctant to place orders. The first easing of the situation occurred in the Chinese sales markets, but the situation is still unstable. The crisis has affected us not only on the sales side, but also in the procurement of maintenance and replacement material, most of which comes from Europe or Asia. Timely procurement was not guaranteed due to supply chain interruptions, leading to delays and significant additional costs. However, there was also a positive effect on the cost side: all costs incurred in BRL led to a lower value by about 20% in the consolidated accounts, given that the Brazilian real suffered massively from the crisis. But, this could compensate only partially for the overall negative effect.

The current order volume allows us to produce on a continuous basis, but unfortunately, we too are at times understaffed and have to send individual teams into quarantine on health grounds. In both Gabon and Brazil, we instituted the Swiss standards for hygiene rules early on, even though they were not yet required locally. Despite these measures, we still have employees today who tested positive, but fortunately have so far been spared serious illness. We exercise direct influence on compliance with all precautionary measures and support our local companies with all means at our disposal.

The Group's gross profit was EUR 11.7 million, 12.3% below the previous year period (EUR 13.4 million). The gross profit margin was 50.7%, compared with 58.9% in the previous year. The main reasons for this negative development are a lower sales price and additional personnel costs. The latter were incurred because we were only able to begin partial operations at the new sawmill in Gabon in April 2020. Earnings before interest, taxes, depreciation and

amortization (EBITDA) amounted to EUR 1.6 million (previous year: EUR 3.1 million), corresponding to a margin of 6.7%. Earnings before interest and taxes (EBIT) reached EUR -0.4 million (previous year: EUR 1.3 million) and a margin of -1.9 %.

The financial result remained unchanged at EUR -1.3 million (previous year: EUR -1.3 million). The current interest charge amounted to EUR 1.3 million (previous year: EUR 1.1 million), due to the investment volumes in Gabon since 2019. The net result was EUR -2.3 million (previous year: EUR -0.2 million). Exchange rate effects on the net result amounted to EUR 0.1 million (previous year: EUR -0.1 million).

The equity ratio was 30.0% on the reporting date (end of previous year: 42.0%). The correction of land values in Brazil undertaken in 2019 is accounted for in BRL. The exchange rate fell by 26% compared with the end of the year, which had a direct effect on equity. Working capital at EUR 14.3 million was EUR 2.4 million below the level at the end of the year. Inventories of logs, veneer and sawn timber increased by EUR 4.3 million. At EUR 7.3 million, trade receivables were EUR 2.8 million higher than at the end of the year, because deliveries picked up only towards the end of the second quarter. Trade payables increased by EUR 0.9 million. Overall, net debt at EUR 41.5 million remained at the level at the end of the year.

Operating cash flow was EUR 3.5 million (previous year: EUR 3.5 million). This includes the change in net working capital of EUR 2.1 million (previous year: EUR 1.5 million). Investments amounted to EUR 2.6 million (previous year: EUR 1.7 million).

A few brief remarks summarizing the results in the individual companies:

Precious Woods Holding Stable headcount

The team consists of 13 employees, of which 7 work in sales (2 field staff, 5 office staff).

Precious Woods Gabon

Lower margins with higher sales

The sawmills produced a total of 19 269 m^3 of sawn timber, corresponding to an increase of 0.7% (previous year: 19 143 m^3). Production volume at the veneer plant fell by 3.7% to 11 082 m^3 (previous year: 11 504 m^3). As in the previous year, maintenance work in the sawmills was carried out in May. The volume reduction in the veneer plant was due to a 4-week interruption of operations.

Net sales were 14.2% above the same period of the previous year, reaching EUR 15.8 million (previous year: EUR 13.8 million). The operating result (EBITDA) was EUR 1.0 million (previous year: EUR 2.6 million). The operating profit margin was 6.2% (previous year: 18.7%).

The result was again strongly negatively impacted by political and logistical difficulties. Strikes by customs officials and/or the forestry authority made delivery practically impossible. This, and the impact of Covid-19, meant that the supply of replacement material from Europe for our operations, but also of individual components for the new hardwood sawmill, was not ensured. This consequently led to increased downtimes in production as well as in quality loss of the sawn timber, which was reflected in a lower sales price.

Equity ratio 30.0 %

Net sales PWG 15.8 EUR million

Precious Woods Amazon Productivity loss but profitability gain

The production volume in the first half-year was 14 953 m^3 of sawn timber, 5.8% lower than in the previous year (15 873 m^3). A limited supply of logs in June caused a decline in sawmill activity. The new harvesting season began at the end of June, ensuring the supply of logs.

Net sales were 1.5% below the previous year, reaching EUR 6.2 million (previous year: EUR 6.3 million). Operating profit (EBITDA) amounted to EUR 1.5 million, representing an improvement of EUR 0.3 million (previous year: EUR 1.2 million). This resulted in an operating profit margin of 24.5 % (previous year: 19.3%).

In February, two additional smaller saw lines were put into operation. This increases monthly log cutting capacity to 15 000 m³. The permit for the harvest volume for the second half of the year is still pending, because the competent authority was closed for three months. But we are confident that we will receive the permit in time. During the same period of the previous year, a high level of inventory, caused by government inspections, was sold in addition to the normal volume. Sales can therefore be compared only to a limited extent.

Precious Woods Trading Drop in sales

Net sales PWT **1.4** EUR million Net sales from trading in European logs and sawn timber amounted to EUR 1.4 million, corresponding to a decrease of 48.8% (previous year: EUR 2.7 million). The operating profit margin was –7.6% (previous year: 5.3%). The oversupply of European logs and sawn timber in Asia, coupled with weak demand for finished products in both the domestic and export markets, was so considerable that prices collapsed. We reduced our activities accordingly. Additional costs for processing our inventories in the Netherlands also led to this collapse in margins.

Carbon & Energy Emission trading (CER)

CER certificates in the amount of EUR 0.1 million were sold in the first half-year, while there was no trading in the same period of the previous year.

Outlook

It is especially difficult to formulate a reliable outlook for this year as a whole. We have expanded production capacity, and the new sawmill in Gabon will be fully operational in the second half of the year. The course has been set for an increase in productivity and profitability. We cannot predict how the market will develop or what further restrictions to expect. From today's perspective, we nevertheless expect an increase in sales and also profitability compared to the first half of the year.

We are currently involved in the process of establishing a joint venture for veneer production in Gabon. This will enable us to continue to operate this component of our business successfully and to be part of a value chain in Europe. At the same time, we are investing in technology, with the aim of increasing yield and reducing costs.

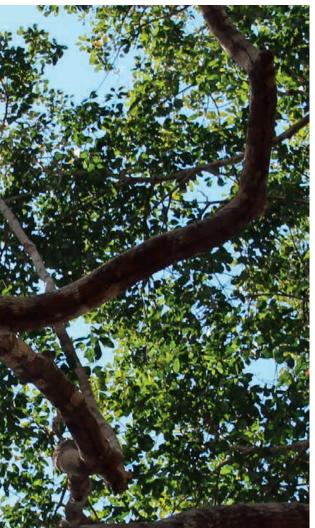

Conditional and authorized capital is at our disposal to finance larger projects or to take advantage of opportunities at short notice.

On behalf of the Board of Directors and Management

Katharina Lehmann Chairwoman of the Board of Directors

Markus Brütsch / CEO / CFO, Delegate of the Board of Directors

Financial Report

Our accounting in accordance with IFRS reflects the reality of the figures and thus creates transparency and trust.

Notes to the interim condensed consolidated financial statements

1. Basis of presentation and accounting policies

The unaudited interim condensed consolidated financial statements of Precious Woods Group (hereinafter "interim financial statements") for the six months ended 30 June 2020, have been prepared in accordance with IAS 34 Interim Financial Reporting and were authorized for issue by the Board of Directors on 10 August 2020. The interim financial statements do not include all information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2019. They mainly focus on new activities, events and circumstances and do not duplicate information previously reported.

These statements have been prepared according to the same accounting policies as those followed for the Group's annual financial statements 2019. The effects of changes to International Financial Reporting Standards are explained in Note 2.

The reporting currency is Euro (EUR). Due to rounding, numbers presented throughout this report may not add up precisely to the totals provided. All ratios and variances are calculated using the underlying amount rather than the presented rounded amount.

2. New or revised IFRS standards, amendments and interpretations

Certain IFRS standards and interpretations were revised or amended, effective on or after 1 January 2020. None of these changes is relevant for the Group; neither the ones effective on 1 January 2020, nor the amendment to IFRS 16, Covid-19-Related Rent Concessions, which became effective on 1 June 2020.

3. Seasonality

For the forestry operations in Brazil the first half of the year is characterized by the rainy season (January to May) during which no logs are harvested.

4. Financial information by segment

The Group's reportable segments are Sustainable Forest Management Brazil, Sustainable Forest Management Gabon, Trading and Carbon & Energy. For further details on the sharp increase in segment assets in Brazil, please refer to the 2019 Annual Report.
